## ANNIVERSARY TESTIMONIALS

### **CITY OF YONCALLA, OR**

"On behalf of the Mayor and the City Council I would like to express our gratitude for your help with the selection of our Centennial Medallion. We had not envisioned such **a stunning commemorative piece.**

We have had amazing response to both the medallions and the key chains.

We ordered both silver and gold inlaid coins and bronze key chains and have had many compliments on all three items.

The Mayor has taken much pride presenting the medallions, gifts and awards at the many centennial events we have had so far this year.

From your initial contact through receipt of the first batch of medallions and key chains, I have been impressed with and confident in Northwest Territorial Mint. I can't wait for our sesquicentennial — expect another order!"

### **GORDON COUNTY, GA**

"Not only is the finished medallion strikingly magnificent, but your company's attention to detail and customer service is to be commended.

We have been inundated with phone calls and letters seeking information on how one may obtain the medallion.

From the exceptionally high quality of workmanship of the medallion itself to the customized presentation box, everything that we purchased **far exceeded our expectations.** In fact, the Board of Commissioners is seriously contemplating using Northwest Territorial Mint to produce specially designed employee recognition items."

### **BOROUGH OF HIGHLANDS, NJ**

"To celebrate our town's centennial we were hoping to find an item that would be truly commemorative and unique. Your minted medallions were just what we needed. Everyone who has received this centennial medallion has commented that they are interested in obtaining others for gifts, and that they are extremely pleased to have received such a thoughtful, special recognition piece that reflects our history.

With your technical assistance and guidance we were able to provide **a quality product at a reasonable price** for our events throughout this year."

### **BURLINGTON, CT**
